The average salary of school teachers in St. Louis is \$633.70. Only twenty-six receive \$2,000 per year. Of 1,101 teachers 1,004 re ceive less than \$900 per year.

American gentlemen desirous of attaining the honor of knighthood should seek the Sandwich Islands. King Kalakaua has a stock of ribbons on hand which can be had cheap. There are now under contract to be com pleted during the present winter for service principally on Lake Superior twenty-eight new vessels, having an aggregate capacity of 43,000 tons.

It is not every day that men-of-war are named after literary men. Admiral Aube. the French minister of marine, has just named the first gunboat of a new type the Gabrie Charmes. A servant girl in Cincinnati has fallen bei

A Few Facts Why You Should Use My Adjustable Shelving Irons.

No more bills of 50 or 100 dollars to pay every time you want to make a change in your shelving; the only perfectly adjustable store and office Shelving ever invented; the best device used for stores, libraries, pantries, closets, book-cases, cheese factories, etc., they can be put up, taken down or changed to any distance apart a thousand times and not mar the paint, injure the lumber, or break the plastering. They are cheaper than any other; they will last a lifetime; can be changed to accommodate any line of goods, or removed from one room to another at a very small expense; the shelves can be raised or lowered in a moment's time, thereby giving you any space desired; they make a straight and uniform line of shetving when desired; they do away with the annoying wood standard; they do away with the expensive wood cornices, which accumulate dust and scatter it over your goods whenever disturbed; they look better and are cleaner; they allow a merchant to place his goods close together, economizing space and making goods show up one hundred per cent. better; they do away with the expense of painting a heavy wood cornice every few years; to sum up, they are cheaper, neater, prettier, more convenient and more durable than the old style shelving. Although of late introduction, they are in actual use in nearly every state in the Union; they have not palled in the Union; they have n State in the Union; THEY HAVE NOT FAILED IN A SINGLE INSTANCE TO GIVE ENTIRE SATISFACTION; after once being introduced no other is ever used; 'I would have no other, no matter what they cost," is the expression of all who have used them. All infringements prosecuted to the fullest extent of the law.

A GENERAL RULE FOR MAKING ESTIMATES:

Ratchet bars are put 4 feet apart, set perpendicular and plumb on the walls, commencing on a straight line about six inches above base shelf; they are 2 feet long. Should you want shelves 4½ feet high, double the number of bars; 6½ feet high, three times as many bars. Crane braces are screwed on top shelf board and are put eight feet apart; brackets according to the number of shelves you want

To responsible parties in the United States and Territories I will send my goods subject to a 60days test, if not perfectly satisfied after trial, they may be returned at my expense. I guarantee satisfaction in every instance. Catalogue containing full Particulars, Testimonials, Etc.. mailed free on application. Export orders must be accompanied by the cash or its equivalent,
